**THE VIDHYAM**  
**SANSKRITI INTERNATIONAL SCHOOL**

# Chairperson's Message

*Education is about more than imparting knowledge. It is about building character and empowering each individual to be an enthusiastic life-long learner and a global citizen of the future. The key to education is building character and developing capability. Without character, Society where they generate without capacity, society will likewise fade. The early years form the basic foundation shaping both the child's character and his or her desire to learn. More than intellectual stimulation, children must learn to live and socialize with their fellow human beings. In this role, schools carry an important responsibility to complement the care and support provided by parents and family. THE VIDHYAM- SIS is committed to the pursuit of excellence and leadership in education and making a difference in the lives of children and in turn society in general, best place for humane. The curriculum is designed to develop students holistically. Classroom learning is inquiry-based and student-centric. Teachers seek to work collaboratively with the children, respecting the unique abilities that each learner brings to learning environment. THE VIDHYAM-SIS also looks to work in close partnership with all members of its parents community.*

*THE VIDHYAM-SIS seeks to graduate students with confidence and character to become active, responsible members of their immediate communities and potentially, as leaders to shape the future of our planet.*

**THE VIDHYAM-SANSKRITI INTERNATIONAL SCHOOL**, a co-ed english medium school of international standard, a new initiative under the direct control of VINIOM EDUCATIONAL AND CHARITABLE SOCEITY(Regd.) of DELHI-NCR, in a sprawling state of art campus spread in an area of 6.5 acres, with the core value - DUTY TOWARDS HUMANITY WITH EMPATHY AND KNOWLEDGE, is going to be the Centre of Excellence for education. Here education to its students is truly in Indian culture, for development of mind and personality, which will help in building Indian society to the best of mankind. This school imparts the spirit, morals and ethics of life. The spirit, that makes human beings human, pervades the school, moulding students to steer the future. A natural and tranquil institution, it nurtures an ideal educational environment for both students and teachers. A blend of tradition and modernity, this institution imparts a natural impetus towards THE VIDHYAM-SIS quest for excellence. The beauty and invigorating atmosphere of the campus is off set with best of ambience in region.

The school offers a rich variety of activities and opportunities for a multi-dimensional growth, making the VIDHYAMITE, an articulate, amiable and affable person. The environment encourages a questioning mind and gives students many avenues for expressing their creativity and building their skills.

Here Standards are explicitly described in terms of knowledge, skills and understanding and the program addresses the development of these skills through subjects, personal development and international understanding.

Here Teachers are trained to present their lessons in a wide variety of ways using music, co-operative learning, art activities, role-play, multimedia, field trips, inner reflection and more.

Themes are developmentally appropriate and are suited to regional, national and global needs, the understanding of the concept is done through thinking, analyzing, self evaluating, communicating and decision making.

## **INFRASTRUCTURE**

### ***Classrooms***

THE VIDHYAM-SIS believes in creating a happy classroom. The Vidhyam facilitates learning through smart and hi-tech class rooms. Our classrooms are well lit, spacious, CCTV enabled and equipped with smart board, technology-based learning age. The number of students in each classroom is restricted so that it enables the teacher to give individual attention to each student.

Center for excellence

- Library-a learning hub
- Visiting faculties
- Coaching for abacus, vedic mathematics and more

### ***Transport and safety***

Safety and security are given prime importance. All the school buses are CCTV enabled and fitted with GPS device which helps the school keep track of routes and communicate with the bus at all times. The buses are also equipped with fire extinguishers. A guard and a maid escort the students to ensure safety and cleanliness. All the buses have a first-aid kit to attend any medical needs.

### ***Health and hygiene***

THE VIDHYAM-SIS has a fully equipped infirmary, wellness zone, an essential feature of every school. It is meticulously handled by an experienced doctor, who is expert in addressing first-aid and other medical treatments. The wellness zone is packed with nebulisers, inhalers, oxygen cylinders and availability of the most vital medicines that are kept refrigerated at all times.

A proper health record of each student is well maintained through checkup rounds taken by the doctor continually which is shared with the parents by the end of each academic session. The school also organises an annual eye and dental check up for instilling in our students the importance of eye and dental hygiene.

### ***Science laboratory***

The school is well equipped with science laboratory with customised equipment to cater to the requirements of different curricula and students of different age groups. Our science lab is aesthetically designed keeping in mind the materials being used, safety regulations and ventilation systems

### ***Skill lab***

We strongly believe that the students are naturally curious and that they must be encouraged to probe by facilitating an experiential learning environment to them. The extensive use of play based manipulatives and design technology in our Skill labs enables our students to discuss sustainable developmental goals of the UN for developing a growth mindset.

### ***Sports Facilities – with speacilised training for future member of Indian Team***

- Basketball
- Badminton
- Cricket
- Football
- Carrom
- Chess
- Skating
- Table Tennis
- Lawn Tennis (Proposed)

### ***State of art-Amphitheatre - For creativity based learning***

## ***TEACHING STYLE- being adopted at school***

### **Cooperative learning-**

through this method students learn essential interpersonal life skills and develop the ability to work collaboratively-a skill greatly in demand.

Audio-visual aids make the subject come alive and grab the attention of the students

### **Concrete-to-abstract**

By leading the students from the concrete to the abstract, teachers give the students a hand-on experience, therefore the students 'know' what they learn.

Application of the theory of multiple intelligence.

Students are exposed to a variety of experiences which engage or stimulate the different minds or intelligence in them.

### ***Teaching with resources***

Teachers are also encouraged to create their own resources in the form of presentations, which are also made a part of smart learning of students and the teacher is accessible to each child as teacher-student ratio is low.

### ***Hands-on-experiences***

In order to stimulate and encourage 'good work', students are given hands-on-experiences. Critical thinking is encouraged through various thinking skill activities.

## **INNOVATIONS IN CURRICULUM AT DIFFERENT LEVELS**

School lays stress on sound & strong academics through its concept & project based learning. The teaching and learning is based on multi-sensory & multiple intelligence approach. We have adapted a very unique approach "Learning Center Approach" for the students of Nursery

Various learning centers like Literacy, Numeracy, Hop and Toss, Science allow children to explore and apply newly learnt skills independently.

BLOOMZ--- an inspiring and ultra-modern preschool for your child.

Your child gets international quality education with Indian values amid joyous airconditioned ambience. The amazing blend of academics, technologies and infrastructure not only delights but energizes your kids to learn while playing.

Our students transit from one center to another where a specialized teacher imparts teaching through internationally accepted teaching methodologies. The concept learning is related to life and made fun with interesting and challenging activities.

## **EARLY YEARS - CURRICULUM JUNIOR SCHOOL (Grade 1-5)**

In conformity with the new evaluation scheme suggested by the CBSE and in order to provide stress free environment to the students in the primary section of the school, we have no formal examination system. However, comprehensive & continuous monitoring is done to check the strength & weaknesses of learning frequently in the form of formative assessments. The learners have better opportunities to improve themselves. **LEARNING THROUGH CREATIVE PRACTICE WILL BE THE PATH.**

At the Junior School level, we focus on the development of oral as well as written expression, creative writing, critical thinking and mathematical skills. With this focus, we send weekly Journal prompts in English, Math and Hindi. Critical thinking is encouraged through various thinking skill activities. The subjects formally introduced at this level are English, Hindi, Math, International Primary Curriculum/ GES, Computer Science, Art & Craft, Physical Education, Science (Grade 5), Ill Language Sanskrit/ (introduced in grade 5).

The teaching-learning process at this level is interactive and conscious effort is made to integrate subjects, thus helping children to move from the known and explore the unknown. We believe that learning is the most important event in our school and we want children to enjoy the new dimensional learning process via International Primary Curriculum.

To assess the child's early development the school provides conducive environs to budding scholars for complete blooming. The Learning Centre Approach has shown a remarkable outcome wherein young minds are exposed to various facets of life and do great feats with the aid of their teachers .

**LEARNING THROUGH CREATIVE PRACTICE WILL BE THE PATH.**

## **MIDDLE & SECONDARY LEVEL**

The school follows a comprehensive & continuous evaluation system as per CBSE norms. The assessment is strictly done in scholastic & co scholastic aspects, which includes life skill co-curricular activities & values, which are recorded & subsequently graded. From Standard 7<sup>th</sup> onwards dedicated classes for Mathematical aptitude, Reasoning, English and General Awareness with General Knowledge, will be formed for students who are going to choose Engineering, Medical, Civil services, Management, Defence services and Banking sector etc. as their career

## SENIOR SECONDARY LEVEL

The school diligently follows the CBSE guidelines at the Senior Secondary Level.

The pattern will be followed like in college, each subject will be headed by a specialist teacher as HOD who will monitor level of growth of each student in that subject on regular basis. If needed special classes will be conducted for poor performing students. Regular test in each subject will be conducted. From Standard 9th onwards special classes will be formed for students who are going to choose Engineering, Medical, Legal and Management as their career. Best available teacher will be called for coaching like classes. Be sure THE VIDHYAM will bring best education and best result in this region.

## SCHOLARSHIPS

Besides this, the school offers scholarships to young scholars on the basis of academics, cultural and sports proficiency.

## EXTERNAL EXAMINATION

External exams provide a platform to the students to compete with their peers in and outside the school to introspect, learn and enhance their abilities and talents. Therefore, we take initiatives to organize external examinations like NTSE, NSO, ISO, NCO, IMO, and Spell Vocab etc. from time to time. Besides these, the school organizes competitions, which channelizes the potential of the children in co-scholastic arenas like sports, cultural, linguistics, art & craft. Children are exposed to multifarious life skills & attain excellence and the edge in life.

## NEW INITIATIVES

### Smart Interactive Boards

The role of educators and teachers has also expanded, making them more creative, innovative and engaged with students. They now have access to the latest educational technology with interactive smart boards replacing the traditional black boards, along with Projectors and Laptops. The features of a computer, internet, power point presentations and animation have been blended together to create the WOW factor, bringing in magic to THE VIDHYAM-SIS classes.

IT ENABLED SMART CLASSES - THE VIDHYAM-SIS provides best available and favourable learning environment, in tune with the latest trends. Facilities for both study and research work through interactive smart board, through Local Area Network (LAN), student workstations, scanning, printing and digital camera facilities, access to the Internet and World Wide Web, and other online and off-shore services, is provided to supplement course work. The campus has a computer lab with advanced infrastructure to cater to the requirements of students, teachers and the curriculum.

## **PEDAGOGY DOES MATTER!**

**Smart Learning** can engage students and produce more meaningful and deep learning experiences by using audio and visual from various sources. We have IT enabled smart classes with a plasma/ smart board in each class to aid the teacher to help deliver the concept better.

**Grouped Classroom Experiments** are activities where a number of students work in groups on carefully designed in guided inquiry and interactive questions.

**Cooperative Learning** involves structuring classes in small groups that work together in such a way that each group member's success is dependent on the group's success. There are different situations, but they all balance some that distinguish cooperative learning from competitive or individualistic learning.

**Effective Role Plays** are an effective method of getting the message across. In most role-playing exercises, each student takes the role of a person affected by an issue and studies the impacts of the issues on human life and/or the effects of human activities on the world around us from the perspective of that person. More rarely, students take on the roles of some phenomena, such as part of an ecosystem, to demonstrate the lesson in an interesting and immediate manner.

**Projects & Models** are an effective teaching tool. The models are used as demonstrative tools to explain a particular concept. Once the child creates his/her own project, it is easier for the child to internalize the concept as learning by doing is the best way to learn.

**Context-rich problems** are short realistic scenarios giving the students a plausible motivation for solving the problem. The problem is a short story (beginning with "you") in which the major character is the student. Context-rich problems are more complex than traditional problems, reflecting the real world, and may include excess information, or require the student to recall important background information.

**Interactive Lectures** are an easy way for instructors to intellectually engage and involve students as active participants in a lecture-based class of any size. Interactive lectures are classes in which the instructor breaks the lecture at least once per class to have students participate in an activity that lets them work directly with the material.

**Comprehensive and Continuous Assessment** - provides educators with a better understanding of what students are learning and engages students more deeply in the process of learning contribution.

One can dream, create, design & build wonderful place in the world but it requires people to transform that dream into reality. At THE VIDHYAM-SIS we embellish children to grow and achieve their dreams. We forever endeavour to make our students' educational experience rich and sound.

THE VIDHYAM-SIS, an academic beacon, offers a wide-ranging educational experience, moral & spiritual development, imparting sound knowledge and a memorable schooling experience.

Apart from academics, the proposed facilities like THE VIDHYAM-SIS Sports Academy, THE VIDHYAM-SIS shooting range THE VIDHYAM-SIS Academy of Performing Arts cater to the creative talents of the budding scholars which fosters learning and achieving high standards of creativity.

We look forward to a future where our students are able to meet challenges that would never seem too big to achieve. 'Creating better human beings' is our motto and we can do that only when we are able to mould our students to be good human beings with values that are embedded for life.

Our emphasis is on research and development that has become the core factor for growth across the globe. With our committed & qualified team and world class infrastructure, we will be able to achieve our goal and make education a celebration for the study.

WE, THE VIDHYAM- SIS FAMILY COMMITTED FOR EXCELLENCE

# THE VIDHYAM
